PROFESSIONAL SUMMARY

Final-year Computer Science Engineering (Data Science) student with strong analytical and problem-solving skills. Skilled in data analysis, data visualization, and dashboard development using Excel and Tableau, with basic knowledge of Python and SQL. Quick learner with the ability to adapt to new technologies and contribute effectively in team environments. Demonstrated strong analytical and problem-solving skills through real-world data projects.

SKILLS

Python (Basic), SQL (Basic), Microsoft Excel, Tableau, Git, GitHub, Data Analysis, Data Visualization, Dashboard Development, Data Cleaning, Reporting

PROFESSIONAL EXPERIENCE

Data Analytics Intern | TechnoHacks

Nov 2025 – Dec 2025

- Analyzed sales datasets to identify trends, patterns, and key performance indicators (KPIs).
- Developed interactive dashboards using Microsoft Excel and Tableau for data-driven decision-making.
- Generated actionable insights from data to support business analysis and reporting.

PROJECTS

Smart Sales Dashboard | Microsoft Excel |

Nov 2025 – Dec 2025

- Developed an interactive sales dashboard using PivotTables, PivotCharts, KPIs, and slicers.
- Performed data analysis to track performance across regions, product categories, and salespersons.
- Enabled dynamic filtering and visualization for better data exploration and insights.

Sales Performance Dashboard | Tableau |

Nov 2025 – Dec 2025

- Designed an interactive Tableau dashboard using the Sample Superstore dataset.
- Implemented filters and dashboard actions for real-time data exploration.
- Presented key business insights through effective visual storytelling.

CERTIFICATIONS & ACHIEVEMENTS

- Cisco Data Analytics Essentials – Cisco Networking Academy
- Oracle Cloud Infrastructure Generative AI – Oracle
- TalentNext Database Solution – Wipro
- AWS Academy Data Engineering – AWS Academy (Graduate)

EDUCATION

B.Tech in Computer Science Engineering (Data Science)

Sphoorthy Engineering College, Hyderabad

2022 – 2026
